PointStar — Company Overview

Document ID: KB-INFO-000

Version: 1.0

Last Updated: 2026-01-15

Category: General Reference

> *Sourced from public information on point-star.com and affiliated regional sites (pointstar.com.my, pointstar.co.id) as of January 2026, for grounding the support agent's context. Specific billing figures elsewhere in this knowledge base remain illustrative/dummy values for this exercise.*

1. Who We Are

PointStar is a cloud transformation and technology consulting company founded in 2008, headquartered in Singapore, with offices across Singapore, Malaysia (Kuala Lumpur), and Indonesia (Jakarta, Bandung) — over 170 employees across 7 offices in 3 countries. PointStar has delivered projects for more than 3,000 business organizations across the region.

2. Partnerships & Accreditations

- **Google Cloud Premier Partner** — one of the region's leading partners for Google Cloud Platform (GCP) and Google Workspace.
- **Oracle NetSuite 5-Star Solution Partner** — cloud ERP, accounting, and inventory systems.
- **Authorised Cisco Meraki Partner**.
- Additional technology partnerships: JumpCloud (identity/SSO), Zoom (video conferencing), AppSheet, Apigee, HelloSign, Logitech.

3. Products & Services Offered

Category	Examples
Cloud Productivity & Collaboration	Google Workspace, Google Workspace for Education
Cloud Infrastructure	Google Cloud Platform, Google Maps Platform
Cloud ERP / Accounting	Oracle NetSuite (Cloud ERP, Cloud Accounting, Inventory)
Identity & Access Management	JumpCloud (SSO/directory for AWS, Salesforce, GitHub, Slack, Zoom, etc.)
Networking & Security	Cisco Meraki
Video Conferencing	Zoom
AI / Automation	AI chatbots, machine learning solutions, AppSheet no-code apps
Professional Services	Consulting, implementation, system integration, managed services

4. How This Maps to Support Categories

- **Billing** questions typically relate to a specific product subscription (Google Workspace, NetSuite, JumpCloud, Zoom, Cisco Meraki licenses) or to Professional Services engagements (implementation/consulting invoices).
- **Technical** questions typically relate to integration/sync issues between these platforms, login/SSO (JumpCloud), or platform-specific errors.
- Because PointStar resells third-party cloud subscriptions, refund terms differ by product vendor — see Refund Policy (KB-POLICY-001) for the category breakdown before answering any refund question.
